Presumptive Remedy Chart
Proposed Plan
Del Amo Soil and NAPL OU

Acronyms Footnotes:
SVE Soil Vapor Extraction
BEC Building Engineering Controls
VOCs Volatile organic compounds

1. This flowchart presents various contaminant scenarios that can reasonably be anticipated. However, it should be noted that other unanticipated scenarios not listed here could be encountered as well.
2. Areas for remedial action (e.g., excavation) are assumed to be within the footprint of the proposed construction project.
