Re: Del Amo Superfund Site, Administrative Order on Consent, Docket No. 92-13  
Draft Remedial Investigation Report

Dear George and Larry:

It was brought to my attention that there appeared to be a few minor errors in the RI comments that I transmitted to you on December 20, 2004. I have reviewed the subject comments and have ascertained that the following comments had minor errors: #1a, 1c, 5, 12, and 40. The comments can be corrected as follows.

Comment #1a: The comment incorrectly references Attachments 4 and 5; these references should be to Attachments 3 and 4 respectively.

Comment #1b: The comment incorrectly references Attachment 4; the reference should be to Attachment 3.

Comment #5: The comment incorrectly references Attachment 7; the reference should be to Attachment 5.

Comment #12: The comment incorrectly states that it pertains to Section 3.1, 2nd paragraph; the pertinent section and paragraph should be Section 4.1, 4th paragraph.

Comment #40: The comment pertains to Section 9.0, 1st paragraph. Part of the comment incorrectly includes editorial instructions regarding the fourth sentence of the paragraph. These editorial instructions actually apply to the 5th paragraph (of Section 9.0), fourth sentence. Please break out this part of the comment and make it its own comment, numbered 40½. This will make it easier to track during the response to comments process.

Thank you for your work on the RI project. If you have any questions, please contact me at (415) 972-3166, or via email at rodriguez.dante@epa.gov.
Sincerely,

Dante Rodriguez, P.E.
Del Amo Project Manager
U.S. EPA Region 9
