Erich,

I copied you on the letter I wrote regarding the errors in the RI comments. For your reference, below is a list of all the comments that you raised to my attention, and an explanation of what occurred to that comment in the final comment letter.

-Dante

Email #1 from Weaver to Rodriguez dated 1/18/05:
"Attachment 1, #6 Re: Section 6.1.3, 3rd paragraph, 5th sentence."  
ANSWER: This one was slightly modified in the final comments, and is #27 in the final.
"Attachment 1, #15 Re: Section 8.0 table and 7th paragraph."  
ANSWER: This one was combined with another comment to form comment #39 in the final.
"Attachment 1, #16 Re: Section 9.0, 4th sentence."  
ANSWER: I had erroneously combined this comment with comment #40 in final. I'll break it out from #40 to make it its own comment number.
"Attachment 1, #44 Re: Table 16  
ANSWER: This one was intentionally dropped, since the table already has the desired note.
"Attachment 3, #5 Re: Section 4.2, Investigative Elements  
ANSWER: I incorporated this comment into another comment, specifically #83. I combined it with other similar ones, etc.
"Attachment 6, #6 Re: Section 2.0 3rd paragraph, last sentence  
ANSWER: I dropped this comment intentionally.

Email #2 from Weaver to Rodriguez dated 1/18/05:
"Attachment 1, part 1; Comment 1a, from the re-organized version pertains to QA/QC issues for soil gas, and
refers the reader to "Attachment 4, page 9 number 2 through page 13 up to number 3. Also Attachment 5"  
ANSWER: The references to Attachments 4 and 5 should be to Attachments 3 and 4 respectively.

There were two other comments that contained this same type of error, Comments #1c and #5 (numbering from the final comment letter).  
ANSWERS: Comment #1c refers to Attachment 4, but it should refer to Attachment 3. Comment #5 refers to Attachment 7, but it should be to Attachment 5.

Email from Weaver to Rodriguez dated 1/6/05:
"Comment #12 from attachment 6, regarding the Draft RI report, refers to Section 3.2, 2nd paragraph; however, the text there does not seem to correspond with the comment. It appears this comment is applicable to Section 4.1, possibly the third paragraph on pg 14?"  
ANSWER: This comment should refer to Section 4.1, 4th paragraph.
